

## Fund objective

Blockchain Strategies Fund (BSF) is a specialist blockchain and digital assets focussed fund of funds that provides investors a single diversified investment to the asset class. Investors benefit from rigorous due diligence and unrivalled diversification to remove unnecessary risk. BSF allocates to 'best in class' institutional grade managers in four core sectors: Fixed Income, Beta/Passive, Trading and PE/VC. BSF is actively managed with strict diversification, weighting and liquidity controls that apply at every level – core strategies, manager, cryptocurrency, exchange and custodian. Counterparty risk is of paramount importance and is reviewed monthly.

### Your specialist asset manager

#### • Expertise

International team of hand-picked professionals with experience in crypto, risk management, banking and funds management.

#### • Diversification

A diversified multi-strategy approach that captures the sector's exciting growth while reducing downside risk in what is still a volatile and complex sector.

#### • Governance

Set up using a well-established structure in Luxembourg. The Fund has an independent administrator, bank and auditor and is registered with the CSSF.

#### • Risk Management

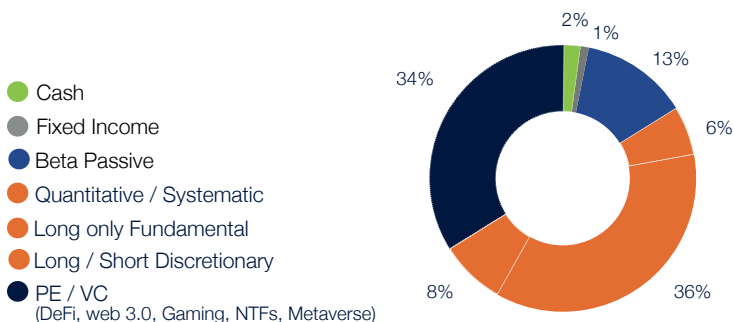

Fully developed risk management framework. Enhanced due diligence model customized for the unique characteristics of the crypto asset class.

#### • Scale

As the Fund grows, Investors benefit from higher scale rewards as opposed to an individual investment into any of the underlying instruments.
